

Voluntary School Contributions

Monday 3rd February 2020

Our school is so fortunate for the support it receives from our school community.

In 2020, the voluntary contribution has been set at \$40.00 per student. This can be paid \$10 a term if need be. This has been set after consultation with our P&C.

The provision of this resource allows the school to provide further resources to our students and enhance school programs.

We thank you for your outstanding support.
